RECYCLING POSSIBILITIES IN VALENCIA

Valencia has many recycling bins for paper, plastic, glass and bio waste.
The recycling system is easy to use because the bins have different colours.
We separated our waste every day.

VIDEO

WASTE SEPARATION AT THE WORKPLACE

At Atmosphaera Restaurant, we separated paper, glass and bio waste.

At B&B HOTEL, we separated paper and bio waste.

We also tried to reduce waste and keep our workplaces clean.

At Reuniver, where we stayed, waste separation was also possible.

CAN PLASTIC AND GLASS BOTTLES BE RETURNED

No. During our stay, there was no deposit return system for plastic or glass bottles like in Slovakia. People separated bottles into recycling containers instead. A recycling reward system called RECICLOS existed in previous years, but it is no longer available.

SECOND -HAND SHOPPING IN VALENCIA

We saw many second-hand shops on our way to work, but we did not visit them. In Slovakia we use second-hand shops more often.

TRANSPORT BICYCLES

Many people travel by bicycle in Valencia.

There are many bike lanes and public bicycles. Cycling is a fast and eco-friendly way to travel.

WAS IT POSSIBLE TO FOLLOW THE ECO RULES DURING YOUR STAY?

Yes, it was easy to follow the eco-rules. We travelled by bus and metro. We also saved water and electricity during our stay.

WHAT DID YOU FIND INSPIRING?

We would like to have more bike lanes and better waste separation in Slovakia.
Valencia showed us that small eco-friendly actions can make a big difference.

WHAT WOULD YOU IMPROVE?

People could behave better on the roads and use rubbish bins more often. This would make the city cleaner and safer.
